

From Language to Literacy. Learn to Cue, an introduction to Cued Speech.

Synopsis

In this session you will learn the structure and key concepts of Cued Speech and understand its value and application in practice in various contexts including a parent's personal account and working with Early Years. You will feel confident and well prepared to engage with the CSUK on-line course.

Activities

Our training Lead and our Family Support Practitioner will introduce Cued Speech and the contexts in which we work.

Using practical activities and resources you will be able to learn how cues can be applied to any word in the English language and its use in a variety of contexts, Q and A included.

Outcomes

Learners will have a good understanding of the system and its potential applications. Learners will be able to accurately describe how Cued Speech can be used in practice and context and will know how to access information support and further training.
