

Do you
have a baby aged
0-36 months using
hearing aids?

Join our
research
project!

Funded by

What is the research about?

Researchers at the University of Manchester would like to get a better understanding of families' experiences using hearing aids with babies and toddlers, to help them develop the best possible support for families

What is involved?

- ☀️ Completing an anonymous online questionnaire about your thoughts and experiences using hearing aids with your child that will take around 40 minutes to complete
- ☀️ You'll receive an Amazon e-voucher to thank you for your time
