

**Are you a parent of a child born with hearing loss,
vision loss, or multi-sensory difficulties?
Are you interested in talking about your personal experiences?**

We are looking for volunteers to be involved in research that aims to understand parent's experiences immediately following their child's diagnosis of sensory impairment.

We would like to hear from you if...

- You are aged **18 years and over**
- You have a **biological child** who has been diagnosed in **the past 5 years**
- Your child has been diagnosed with **hearing loss, vision loss or multi-sensory impairment**
- Your child was **born with** their hearing and/or vision loss

If you are interested in taking part or require more information please contact the lead researcher

Rebecca Greenhalgh via email
greenhalgr@uni.coventry.ac.uk

Or call 07972576746

**If you have answered yes to all of these statements then you
are invited to take part.**

The study will involve an informal interview/chat (between 60 and 90 minutes) with the lead researcher about your experiences after your child had been given a diagnosis.
