

Study Title: Investigating the Family and Child's Experience of Microtia and Hearing Loss

**Are you aged
between 12 and 17
and have microtia?**

A research student at Aston University is looking for individuals to take part in a new research study funded by Microtia UK.

What is involved in the study?

The study involves an interview with our researcher about your experience of growing up with microtia and what decisions you have made about your microtia.

Who can take part?

Anyone aged 12-17 years old with microtia

What will it involve?

A 1-hour interview online or in-person

To take part in the study, please email our researcher **Saira Hussain:**
