

# Strategies to Support Sensory Needs in the Classroom

## One Day Conference

Monday 26<sup>th</sup> June 2023 | 9:15am – 4:00pm

This unique event, at the UCL Institute of Education, ranked World #1 for Education, will bridge research to practice in the areas of multisensory impairment, deafness, and vision impairment. Leading experts and advocates will discuss the latest research in the field and provide delegates with practical strategies they can use for an immediate impact in their setting.

### Keynote Presentations

**Multisensory impairment (deafblindness): Key facts and best practices** - Dr Leda Kamenopoulou and Eirini Alexandridou

**Deaf awareness and successful communication strategies** - Professor Chloë Marshall and Stefanie Prior

**Vision impairment and supporting VI friendly environments** - Dr Jess Hayton and Amy Young-Harry

### We will explore

- The latest research in multi-sensory impairment, deafness and visual impairment
- Language, communication and executive functions
- Sensory processing
- Applying research findings to a classroom context
- Successful strategies for the classroom

Early bird: £59 (ends 30<sup>th</sup> April)    Standard rate: £79
