

VT 2024

Vibrotactile Conference 2024

by **Seashell**

Discover the latest, innovative practices from across the world at our **Vibrotactile Conference** this autumn.

International speakers, university researchers, leaders in acoustics and manufacturers will demonstrate and discuss how vibrotactile technology is being used for balance, rehabilitation, speech understanding, music, meditation and much more.

- Prof Kingma Clinical Vestibulology, ENT Department Faculty of Medicine, Aalborg University Hospital, Denmark
- EHS Research Group, Institute of Sound and Vibration Research, The University of Southampton, UK
- Emma Greenland, Director of Anderson Acoustics
- Sound X' VT backpack: User experience (Manchester Sensory Support Service)
- Allison Treseder, Au.D Audiologist. Head of Partnerships Neosensory, Inc.
