

Mixmups Ultra Access[®]

One story. Over
4000 ways to watch.

An interactive TV service
which tailors viewing for
your deaf, disabled or
neurodivergent child.

ULTRAaccess™

What is Mixmups Ultra Access®?

A free interactive TV service from Mixmups on Milkshake! (Channel 5), which allows every child to access the magical world of Pockets, Giggle and Spin, in their own way.

One size doesn't fit all.

Most kids' TV still assumes:

- One soundtrack
- One visual style
- One language
- One way to process information

For many disabled children,
that means switching off
– or being left out.

*“Finally,
someone
gets it!”*
The Guardian

Mixmups with Ultra Access® changes that!

Pick your episode and choose from:

“Most deaf pre-schoolers can’t read subtitles, and many can’t yet sign. Audio description only gives half of the picture and children with processing difficulties need a slower pace. As a disabled creative myself, I wanted to give every child a way into the world of Mixmups.”
